DETAILED ACTION

- This action is responsive to the following communication: Amendment After Final filed on 9/13/06.

Response to Arguments

Applicant's arguments, see pages 2-3, filed 9/13/06, with respect to claims 1, 12, 33, 40 have been fully considered and are persuasive. The prior art rejection of claims 1, 12, 23, 33, 40 has been withdrawn.

During a telephone interview with Mr. Magluyan dated 9/6/06, in which he argued the previous examiner who handled this case had agreed to withdraw a rejection dated on 1/9/06 regarding features as cited in claim 1 "selection criteria for selecting reproduction data". Upon further consideration of the cited prior art of record (US 5978560), the examiner herein agrees to withdrawn a final rejection dated on 6/15/2006. The examiner agrees that Tan (US 5978560) fails to teach and/or suggest a "selection criteria for selecting reproduction data" as cited in claim 1.

Allowable Subject Matter

Claims 1-46 are allowed.

The following is an examiner's statement of reasons for allowance: The cited prior art (US 5978560 to Tan) of record teaches a reproducing system which includes a rule based criteria for selecting reproducing device capable of producing print data but fails to teach and/or suggest rules based criteria for selecting reproducing data. The examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of prior arts that teaches the above limitations and in combinations of other features cited in claims 1, 12, 23, 33, 40.
